

CTK WEEKLY

HEADS UPDATE

Apologies for starting with some sad news, but I have to announce that Mrs Wepener and Mrs Davies have secured a post at another school for September. For reasons related to their personal situations, they will take up new positions applying their considerable experience and expertise to another group of lucky pupils. Their impact at Christ The King has been considerable and they will be missed by staff and pupils. After a relatively unsettled start to the academic year, the pupils of Year

6 and their parents couldn't have asked for a better answer to prayers we may have had. Their commitment to the pupils has been unwavering, the relationships built have been based on mutual respect and the academic progress that pupils have made has been exceptional. On behalf of everyone at CTK, "THANK YOU" and good luck for the future.

In response to this, Mr Sanderson has wasted no time in looking for a replacement and has advertised for a new Year 6 teacher. Interviews are taking place on Friday and we hope to announce the new teacher next week.

Risk Assessment & Parent School Charter

If you are wondering what measures we have taken to open the school on Monday then there is a detailed document you can read, that will be on the Website from tomorrow (Friday). For those parents worried about sending their children back to school, it might allay any worries and answer some questions.

For those children joining us on Monday, we are asking parents to read and agree to a lot of procedural information. I see it as a partnership between home and school and have hence insisted that parents sign a Parent School Charter. This will ensure we work together to ensure the risk of catching or spreading the virus is minimised, as we know the risk will not be removed.

Cleaning in School

I just wanted to let you know that our cleaning team will be implementing a much enhanced cleaning schedule around the school. Toilets will be cleaned multiple times throughout the day and classrooms deep cleaned on a Friday when we are closed, except for key worker children.

Home Learning

Teachers will continue to provide home learning the same way we have over the last few weeks. Expectations will be the same and regular contact made through our online class systems (Tapestry and Class Dojo).

Remember this week has been half term (it's easy to forget!!!), and I hope you are enjoying the lovely weather. Our staff are taking a bit of break as well, so you may not have heard from them as much. Rest assured they will be back with a vengeance from next Monday.

Chris

Our home learners in action

(a sneaky peek at Yr 3 & 4)

We are so proud of the activities that have been taking place with children at home. Parents have really engaged well with activities that may have normally been outside their comfort zone. The ultimate beneficiaries are the children, but well done to all the CTK parents and family members who have stepped up in these tough times.
